<b>Total</b>	<b>9</b>	<b>260.0</b>		<b>0.0</b>	<b>260.0</b>		<b>40.0</b>	<b>220.0</b>	<b>85%</b>

**Note 1** - Whilst all borrowers must maintain sufficient security uncharged to meet the asset cover, the MorHomes model was designed to give borrowers up to 24 months to put security in place. Work is ongoing to progress charging documentation for all borrowers. Where no debt secured is shown, we have a single property in charge whilst further security work is undertaken. At this time the value of this property is not confirmed as it will be done as part of the larger security exercise.

**Note 2** - No early early loan repayments were made during the quarter or notified during the quarter to be made following the end of the quarter

**Note 3** - There were no borrowers with arrears at the end of the quarter

**Note 4** - There were no drawings on the liquidity facilities at the end of the quarter
